WORK EXPERIENCE

AZSM Enterprises

Nov 2024 - Present

Banglore, India

- Designed and developed responsive, user-friendly web UIs following UI/UX best practices in collaboration with design and dev teams.
- Customized WordPress themes and managed content updates as per client needs.
- Built dynamic web apps using React.js with reusable components and REST API integrations.
- Enhanced website UI/UX by blending design thinking with front-end skills.
- Participated in code reviews and sprint meetings to ensure alignment with client goals.

PHPPOETS Pvt. Limited

Apr 2021 - Nov 2024

Udaipur (Raj.), India

- Developed responsive, cross-browser user interfaces using HTML5, CSS3, and Bootstrap.
- Customized WordPress themes and managed content updates based on client needs.
- Built React.js components with structured pages, interactive features, and UI/UX best practices.
- Collaborated with backend teams and integrated REST APIs to deliver projects on time, ensuring SEO-friendly structure and optimized performance.

nDimension Studio (Internship)

Jun 2019 - Nov 2019

Udaipur (Raj.), India

- Built a foundation in HTML, CSS, Bootstrap, and JavaScript for responsive UI development.
- Assisted in front-end tasks, layout adjustments, and basic website structures.
- Analyzed existing codebases to strengthen debugging and problem-solving skills.
- Gained exposure to real-world workflows by participating in team meetings and shadowing senior developers.

PROJECT

EXCEL PTE

- Developed a complete PTE (Pearson Test of English) practice platform with Student Portal, Admin Panel, and Public Website.
- Built reusable components for quizzes, forms, dashboards, and result tracking with responsive, accessible design.
- Integrated APIs for dynamic content such as test questions, scores, and admin data.
- Ensured a clean, consistent UI/UX across all modules using Bootstrap.

Mayhem Studio

- Developed a gaming company website to showcase projects, culture, and vision using HTML and CSS.
- Converted Figma designs into responsive, pixel-perfect layouts with smooth animations and visuals.
- Optimized performance and ensured cross-browser/device compatibility for seamless UX.
- Collaborated with designers and stakeholders to align branding and structure.

Underworld Gang War

- Designed and developed the official website for Underworld Gang Wars using HTML, CSS, and JavaScript, ensuring full responsiveness, cross-browser support, and engaging animations with GSAP and AOS.
- Collaborated with the design team to transform Figma mockups into high-performance, interactive pages featuring countdowns, modals, and subscription forms to enhance user engagement and hype.

MPL

- Maintained and enhanced the official MPL website on WordPress by fixing theme bugs, layout issues, and plugin conflicts.
- Added custom sections and collaborated with content and marketing teams to deliver timely, campaign-aligned updates.

Qoddr

- Developed the main website and admin dashboard for Qoddr, a real-time trading insights platform, using React JS and Bootstrap for a responsive, minimal UI.
- Implemented modules for user management, stock data control, and content sections, integrating APIs for live data, trading news, and user activity.

CERTIFICATIONS

- **Google Certification:**The fundamentals of Digital marketing
- **Hacker Rank certification:**HTML, CSS
